

AARAV DESHMUKH

Entry-Level Chemical Engineer | Specializing in Process Optimization and Safety Compliance
+91 98868XXXX | [aarav@chemindia.com](#) | [LinkedIn](#)

Summary

Passionate Chemical Engineering graduate skilled in process optimization, chemical safety, and laboratory analysis. Hands-on experience through internships in chemical manufacturing and safety procedures. Adept at contributing to process improvement and sustainability initiatives.

Skills

Technical Skills

Process Control and Optimization, Laboratory Analysis Techniques, Industrial Safety Compliance, Fluid Dynamics

Tools & Software

AspenPlus, MATLAB, Excel

Soft Skills

Critical Thinking, Teamwork, Communication

Languages Known

English, Marathi

Experience

Chemical Engineering Intern

2023 - 2024

Key Achievements

2024

- Assisted in process optimization studies for chemical production.
- Conducted and recorded process safety measures, adhering to industry regulations.
- Collected and analyzed chemical samples to ensure process quality.
- Collaborated with team to reduce waste and improve process efficiency.

Academic Projects

Optimization of Chemical Reaction Processes for Improved Yield

- Conducted research and experimentation to enhance reaction yield in a pilot plant.
- Reduced reagent consumption by 15% through process adjustments.

Education

Institute of Chemical Technology (ICT), Mumbai

2021

Bachelor of Technology (B.Tech.) - Chemical Engineering

2021

- Relevant coursework: Thermodynamics, Mass Transfer, Heat Transfer, Industrial Safety.
- GPA: 8.5/10

Certifications & Courses

Certification in Process Safety Management

Industrial Safety and Hazard Analysis Training
